# AWARD WINNING WATER GARDEN DESIGNS AND CUSTOM DESIGNED, PRE - MANUFACTURED WALLS OF WATER

WATER GARDEN DESIGNS BY THARPE LANDSCAPING CO.

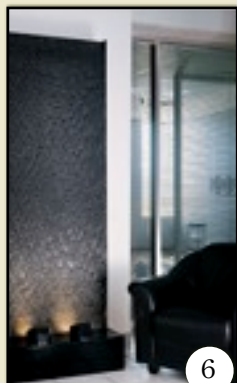

## PRE - MANUFACTURED WALLS OF WATER & DESIGNER ACCENTS

Our one-of-a-kind sculptures work well in restaurants, hotels, convention centers and other public places, and provide the same level of ambience in private homes. Individuals can now enjoy everything from aquatic table lamps to walls of water to palm tree environments.

We use only the finest materials and operate under the strictest quality control standards. Our work is a true investment that maintains its integrity and value for many years of enjoyment.

Contact Water Garden Designs by Tharpe Landscaping Co. today for a free estimate on your custom water feature. We also offer full service, pond maintenance, and a restoration program for all your landscaping needs, as well as a full line of pond and fish products and accessories.

Special orders are always welcomed.

### AQUA FALLS

We are so excited to announce our brand new product line for 2010! Our custom designed, pre-manufactured Aquascapes and Walls of Water are unlike anything you have seen!

The water fall - no single element of interior design creates quite the statement of a water fall - cascading tropical waters in a therapeutic motion pulsating off the bed of polished rocks below. An adjustable flow of water ripples over the black or metallic acrylic faces. An internal water pump and waterproof lighting with interchangeable color filters are concealed under the river rocks within the base that plays the tranquil rhythms of rippling waters, while providing the perfect balance of humidity for your home or work.

Our Walls of Water can be ordered as wall mounted or free standing in rectangular, wave and pyramid shapes that can be custom fit to suit your specific design needs.

### AQUA TABLE AQUARIUMS

Innovate, liquid luxury... truly art in motion. Ever-changing aquatic habitat readily creates a relaxing atmosphere while offering everyday utility. Resting on a black acrylic pedestal, each table aquarium is illuminated from below a bed of blue glass gravel. Complete with lighting, extension cord, decorative plants, and two-stage submersible filter pump. A solid 3/8" tempered glass top completes the system designed to provide years of enjoyment. Shaped to fit your interior placement in octagon, stretched octagon, square and end table sizes.

# DESIGNER ACCENTS

## BUBBLE WALLS

Multi-chambered acrylic panels carry internal light to thousands of dancing bubbles. Available in either wave shaped or rectangular sizes to fit your placement. Black acrylic base provides freestanding support while concealing air pump assembly, light fixture and interchangeable color filters.

## AQUA TOWERS

An ever-changing tower aquarium filled with tropical life and undersea beauty. These designer aquariums continue to be a favorite taking up minimal floor space. Designed to be self-contained with concealed filtration, each model is complete with high-capacity filter, lighting, extension cord, decorative plants, under-gravel filtration and air pump.

## AQUA LAMPS

Evolved from the simple elegance of the original WaterPanels™, our full line of floor and table lamps incorporate the classic proportions of an elegant black shade atop a WaterPanel. The resulting designs of floor and table lamps serve as hypnotic night lights. Clear acrylic chambered panel sections shaped as a vase, pyramid or rectangle channel the internal flow of color filtered bubbles.
